

VIZU STAINLESS STEEL ICE BIN

- Suited for counter mounting locations.
- The optional draining assembly makes draining excess water nice and easy for extended periods of operation.
- Constructed of a double stainless steel skin
- Thick insulation improving ice holding time with no energy consumption required.
- The front door is very simple and easy to use for busy periods of repetitive opening and closing.
- Fully welded front aperture
- Easy clean design
- Easy to mounting in a front counter
- Optional drain (FF116DRAIN) for simple drainage
