

D140V

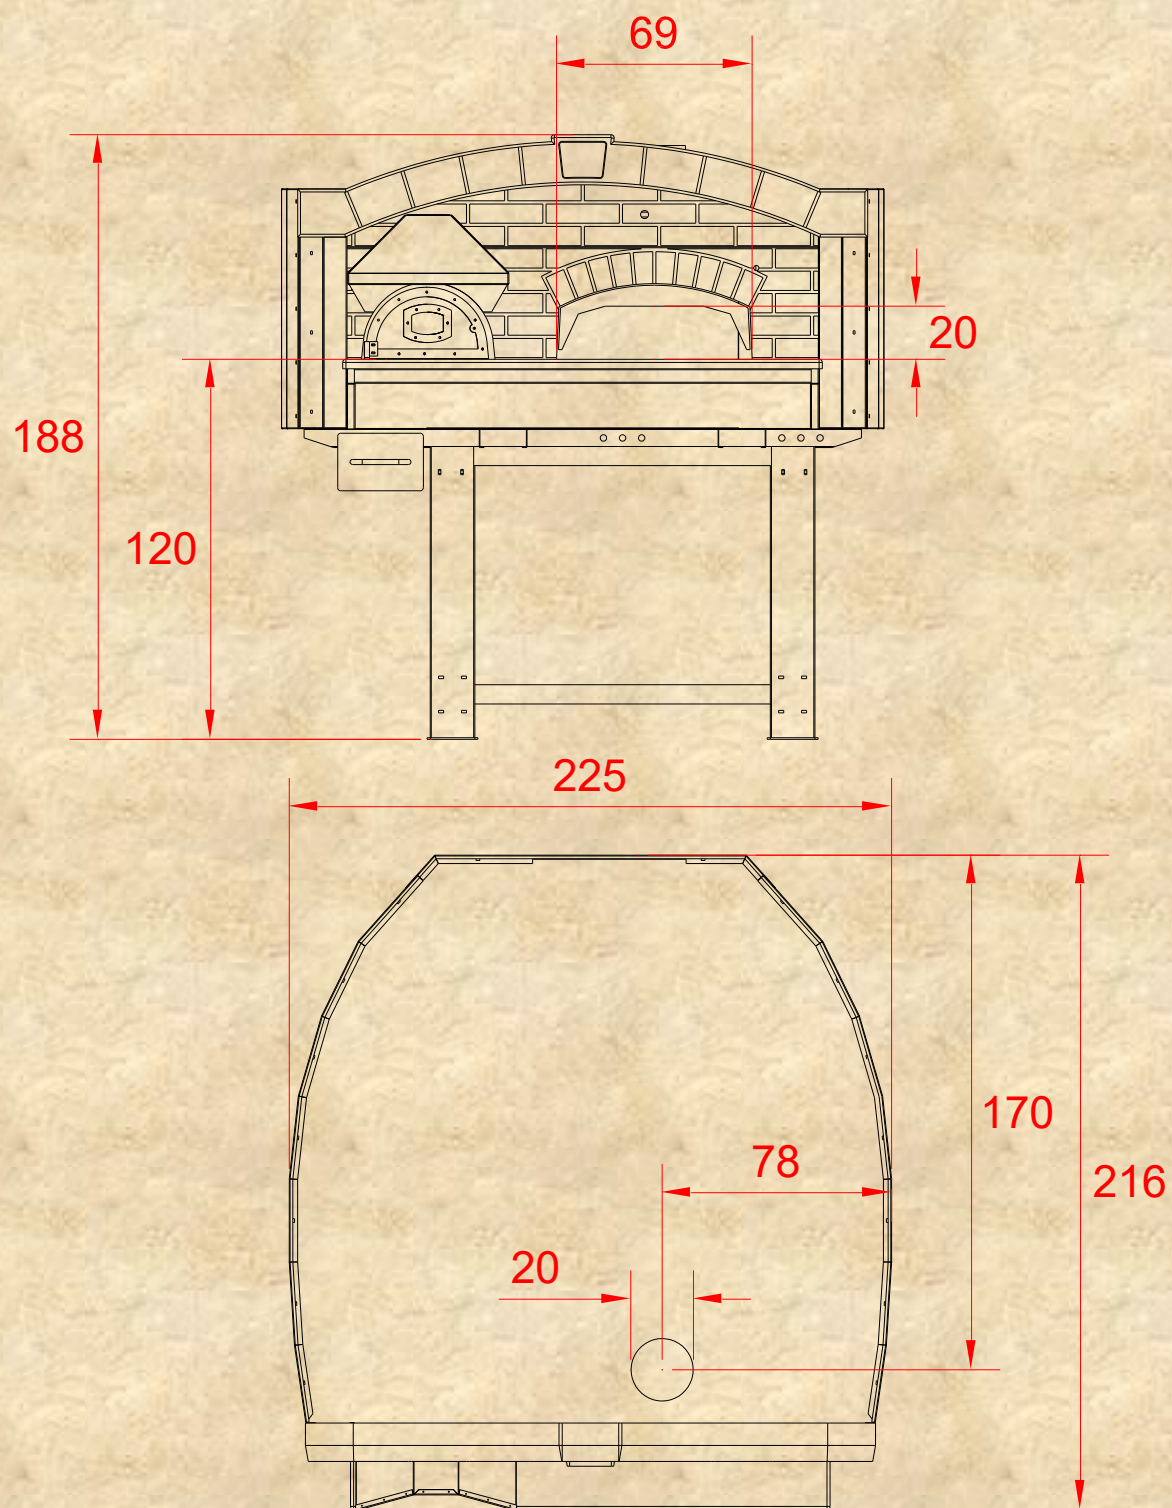

Basic Design

Fuel Type	Wood
Oven Type	Static

The basic model from this series are with metal cover and a brick facade finish – simple, elegant very durable where quality is viable. The wood combustion chamber is separated from the baking surface and it has drawer for collecting the ashes. Those ovens are suitable both for inside kitchen use and building in option where only the oven face will be visible for customers.

Capacity	13  30cm
Productivity	195  per hour
Firewood Consumption 	6 – 7 kg per hour
Weight 	2100 kg

***Dimensions in cm**
