DESCRIPTION

CHIP SCUTTLE, MF-E905

Chip scuttles are designed to keep the temperature of fresh fried chips or any other fried product from the fryer or frying pan.

Its perforated double bottom allows to get rid of any excess oil and collect it in a well. The product can be removed after it has been rinsed.

2 mm stainless AISI-304 steel top with rounded edges for easy cleaning.

Laser cut and automatic welding for a perfect adjustment of sides between modules with square angle finish.

Integrated AISI-304 stainless steel well with rounded edges for easy cleaning.

The well can be used with a 150 mm deep GN-1/1 container.

Perforated double bottom made of stainless steel. It is slanted to rinse excess oil and collect it in the container.

It keep the food's temperature by means of an infra-red light at the back of the container. The lamp is fitted with an ON/OFF switch.

Water-tight and protecting-support controls.

High temperature protector for the chimney made of enamelled cast iron.

Front access to components.

According to European standards for components and panels temperature, efficiencies and combustion, and sanitary regulations (EN-60335 and EN-203)

IPX5 grade water protection equipment.

Maximum power: 1.0 kW

Dimensions: 400 x 930 x 290 mm.

SOUND LEVEL < 65,00 db
